

Harness Nature's Energy, Efficiently...

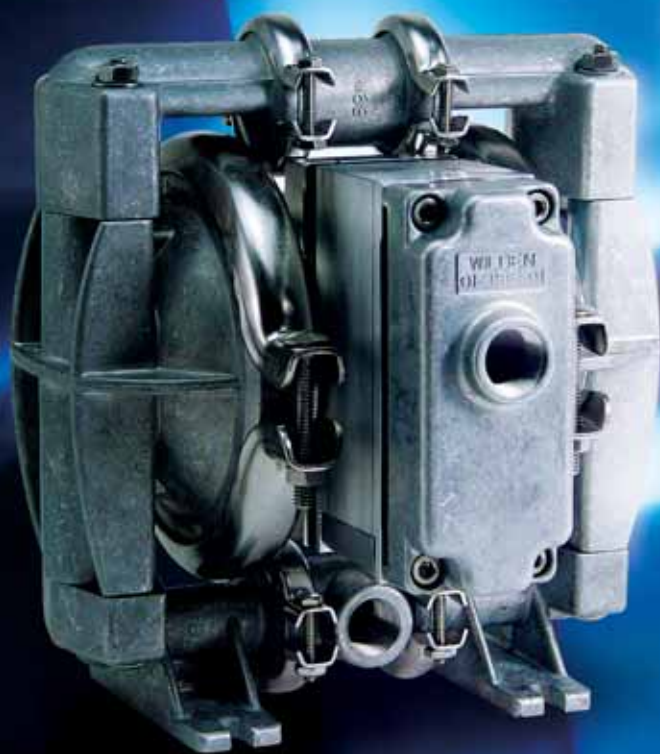

With **PRO-FLO[™]**  Natural Gas Powered Pumps

As the global leader in air-operated double-diaphragm pumps, Wilden offers CSA and ATEX certified natural gas pumps that meet the stringent demands of Oil & Gas industries.

Wilden's Pro-Flo X[™] natural gas powered pumps offer you the flexibility and control of the patent pending Efficiency Management System (EMS[™]). The EMS[™] empowers pump users to control flow rates and natural gas consumption with the simple turn of a dial.

Pro-Flo X[™] natural gas powered pumps are fully groundable and are optionally equipped with statically dissipative elastomers. Pro-Flo X[™] pumps gives you the safety, reliability, and efficiencies needed in today's energy conscious and performance driven applications.

Leave yesterday's standard behind and harness the power of Pro-Flo X[™]. To get started, contact your authorized Wilden distributor today, www.wildendistributors.com

- Certifications: CSA, ATEX
- Complete exhaust recapture design
- All metal construction
- Available in 13mm (1/2") & 25mm (1") pump
- Fully groundable & statically dissipative elastomers
- Superior flow rates & containment
- Superior anti-freezing
- Lube free operation
- Longest M.T.B.F (Mean Time Between Failure)
- Natural gas powered Pro-Flo X Pumps

WILDEN[®]

A **DOVER** COMPANY

Harness the power of **PRO-FLOTM** natural gas powered pumps with the efficiency you've been looking for.

Wilden authorized distributors have the experience, application knowledge and service capabilities that will provide you with the widest range of solutions, products and expertise needed in Oil & Gas industries. Contact your local distributor and install your natural gas powered pump today!

PRO-FLO XTM

- EMSTM Technology (Efficiency Management System)
- All metal construction
- AdvancedTM & OriginalTM Series pumps
- Available sizes 13mm (1/2") – 51mm (2")
- Full exhaust recapture options (submersible)
- High efficiency Air Distribution System (ADS)
- Superior efficiencies & performance
- Superior anti-freezing design
- Fully groundable

Note: Natural gas powered pump is currently offered in 13mm (1/2") & 25mm (1")

ADVANCEDTM

- Bolted construction
- No leaking
- Superior performance
- Superior containment
- Increased flow rates
- Maximum efficiency
- Variable flow and pressure
- Proven reliability longest M.T.B.F
- Widest range of materials, elastomers and pump sizes

Mag Drive Pumps

- Patented run dry and buffer technology
- Integrated CAD/CAE system
- High efficient flow design
- Flange assembly
- High performance magnetic coupling

TYPHOONTM

Gear Pumps

- Durable ductile iron construction
- Variety of internal materials available
- NPT/BSP/ANSI/DIN connections
- Viscosity to 75,000 cps
- Pressures to 13.8 bar (200psig)
- Temperatures to 149° C (300° F)

STALLIONTM

- Large solids to 25mm (1")
- Collapsible handles
- Shock absorbing screen base
- Submersible
- Intrinsically safe
- Ease of assembly
- Self-Priming
- Durable and portable
- Widest range of materials and sizes
